Dear Parent,

As you consider opportunities for your children’s education, we invite you to explore the unique offerings of the Catalina Island Marine Institute (CIMI). Our mission is to provide an exceptional outdoor learning experience that enriches the minds and connects the hearts of students through hands-on, immersive marine science education.

At CIMI, we believe that the natural world provides a powerful platform for learning. Our programs are designed to engage students in the exploration of marine life, ecosystems, and the interconnectedness of all living things. We offer a range of educational adventures that cater to all ages and interests, from introductory programs to advanced courses.

Our educators are dedicated to fostering a love for the ocean and its inhabitants. Through hands-on activities, guided tours, and interactive workshops, we help students develop critical thinking skills, problem-solving abilities, and a deeper understanding of their place in the natural world.

CIMI is not just an educational institution; it is a community of learners and educators who share a passion for marine science and the environment. We strive to create a safe, inclusive, and enriching environment where students can explore, question, and discover.

We understand the importance of outdoor education and its role in fostering a lifelong love for learning. By choosing CIMI, you are investing in your child’s future, equipping them with the knowledge, skills, and perspectives necessary to navigate a rapidly changing world.

As you consider your options for your child’s education, consider the value of an outdoor science program that goes beyond the classroom. CIMI offers a unique opportunity for your child to experience the joy of learning in a natural setting, surrounded by the wonder of the ocean.

We look forward to partnering with you to create a lasting impact on your child’s education and development.

Sincerely,

[Your Name]
